ABOUT ME

Experienced Senior Full Stack Developer with a passion for crafting exceptional Web Applications.
With over 6 years of experience, I have honed my skills in HTML, CSS, JavaScript, PHP, Laravel, React.js, Next.js, Flutter, TypeScript, three js, WebGL, Tailwind CSS, and Bootstrap.
I'm Committed to staying updated with industry trends and delivering high-quality solutions.

EXPERIENCE

SENIOR FULL STACK DEVELOPER, LIWA
APRIL 2022 – PRESENT

I work as a senior web developer at Liwa, a higher education institution located in Abu Dhabi. In this capacity, I collaborate closely with my respected colleagues to upkeep the college's website and manage two other internal websites.

SENIOR FRONTEND DEVELOPER (FREELANCE), SEYOLA

Seyola is a web3 company based in Dubai, as a freelance frontend developer, I had the opportunity to work with Seyola to build their corporate website and design a trading dashboard for Tokens and NFTs. This project involved using React.js and Bootstrap to ensure a smooth and user-friendly experience.

EDUCATION

BACHELOR OF COMPUTER SCIENCE AND INFORMATION TECHNOLOGY
KHARTOUM SUDAN
2013 – 2018

FRONT END CERTIFICATE
META – FACEBOOK
2022 - 2023

EXPERIENCE

SENIOR FULL STACK DEVELOPER, BIS
AUGUST 2021 – APRIL 2022

Bis Technology is a technology company based in Dubai, UAE, known for its wide range of projects, including an ERP system and innovative shopping solutions. In my position, I was responsible for developing the CAFM Module within the ERP system. I successfully delivered a robust and functional module and took care of troubleshooting and ongoing code maintenance to ensure the system's optimal performance and stability.

FULL STACK DEVELOPER, SINAD
FEBRUARY 2020 – JULY 2021

Sinad is a software company located in Khartoum, Sudan. I had the opportunity to work with Sinad as a full-stack web developer and was involved in creating several web-based projects. These projects included an apartment rental platform similar to Airbnb, as well as a POS system and various e-commerce platforms.

FOUNDER, CAMEL CASE
JUNE 2018 – JANUARY 2020

I established Camel Case, a software company located in Khartoum, Sudan. Through this startup, I brought together a skilled team of developers to work on solutions specifically designed for the Sudanese market. Our journey began with the creation of a freelance platform, which aimed to help startup owners in Sudan outsource their technical tasks. This platform successfully connected many startups with the right technical partners. Our second project was a bicycle-based delivery application, offering opportunities for young Sudanese individuals to earn income and support their families.
